HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongue to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore easily and speedily separated. It rests on Gutta Percha, so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE [illegible]]

EASTERN DATES TO MARCH 4

Congressional

WASHINGTON, March 2.—In the House, [illegible] from the Committee on [illegible] reported a bill relieving from the payment of fees under the homestead law all honorable [illegible] and sailors, which was passed.

[illegible] from the Committee [illegible] authorizing a bridge over the Niagara river at Buffalo and making [illegible] Passed.

Ingersoll from the Committee on [illegible] Canals reported a bill granting lands for a railroad from St. James, Missouri, to Little Rock, Arkansas.

Holman protested against giving away any more public lands. Considerable discussion ensued, the friends of the bill explaining that the road ran through a poor country and that the land had been in market for fifty years and has not been entered. An amendment was offered and adopted reserving to the Government the right to fix the rates of freight and passenger fares. The morning hour expired and the bill went over.

The House went into committee of the whole on the Indian appropriation bill. After some time spent in its consideration, the committee arose.

Butler offered a resolution instructing the Judiciary Committee to inquire by what means and by whom the privileges of the House had been invaded and the testimony before the Gold Investigation Committee published before being reported to the House; also what action is necessary to protect members of Congress from the conspiracies of office brokers and others making charges against members for extortion. Adopted.

Maynard offered a resolution calling on the Secretary of the Navy for information in regard to the loss of the steamer *Oneida*. Adopted. The House then adjourned.

In the Senate, Wilson introduced a resolution asking the President for full information respecting the African slave trade and whether our flag had been used to protect traders. Failed.

The joint resolution authorizing the Northern Pacific Railroad to issue bonds and to secure the same by mortgage was discussed till the expiration of the morning hour.

Trumbull reported back the bill relative to taking the census and asked its reference to the Committee on Revision of the Laws.

Conkling introduced a bill granting lands to aid a railroad in Wyoming Territory. Referred.

The funding bill was discussed. Sumner argued in favor of adjusting the mass of financial obligations in some new form and at smaller rate of interest. Taxes must be reduced and the payment of the national debt left in part to posterity. Special payments must be provided for. He thought the bill reported by the committee an improvement upon the bill previously introduced by himself, and he would move an amendment at the proper time.

Buckingham said the appointment of agents in Europe for the negotiation of the proposed bonds would be very unnecessary and expensive, and he questioned the right of the Government, under the banking law, to force the banks to substitute other bonds as proposed. Sumner moved to amend by increasing the amount of bonds therein provided from four to five hundred millions; also that the proceeds shall be applied to the payment of the bonds of 1862, first series. A lengthy discussion ensued between Sumner and Sherman, the latter opposing the making of any discrimination between bonds. Without action the Senate went into executive session and soon after adjourned.

Washington News

WASHINGTON, March 2.—The Senate Judiciary Committee reported to day in the Georgia case. The substance of the report has been already telegraphed. The Senatorial question is not touched upon.

The Senate confirmed the nomination of Leander Holmes, Attorney for Washington Territory; Herman Glaficke as Secretary of Wyoming; George A. Hand as Secretary of Dakota; N. G. Eaton, Jr., of Tennessee, as Commissioner of Education; Edward J. Kearney, Marshal of Washington Territory; Charles Clayton, Surveyor of Customs; Frank Walcott, of Ky., as Receiver of Public Moneys in Wyoming. Postmasters—Jesse R. Grant at Covington, Kentucky; Geo. J. Clark at Los Angeles, and Chas. J. Thomas at San Jose.

The following nominations were sent to the Senate: Charles H. Lewis, of Virginia, as Minister resident at Portugal; Commodore John A. Windsor to be Rear Admiral; Capt. James H. Strong to be Commodore; Commander A. C. Rind to be Captain; Capt. James M. Frailey to be Commodore; Commander G. M. Ransom to be Captain; Lieut. Commander J. N. Miller to be Commander; Lieut. Menzies to be Commander; Lieut. Commander Albert Hopkins to be Commander; Lieut. Edward S. Keyser to be Lieut. Commander. Also a large number of nominations for minor positions in the navy.

At a meeting of the National Association of School Superintendents to day, it was stated that during the last five years the Freedmen's bureau expended three and a half million dollars, and a like sum had been expended by Northern benevolent institutions for the education of the Freedmen.

Captain Ward, of the Royal Navy, at the verbal request of Schofield, of the House Naval Committee, estimates the cost of the *Monarch* at 1,300,000; engines and fittings 166,000.

The Senate postponed the further consideration of the nomination of Bradley for the Supreme Court, till the 21st. Several Southern Senators opposed the nomination. The object of the postponement is said to be to give time for the passage of a bill embracing Mississippi, Texas and Arkansas, in one Judicial District, with one Associate Judge of the Supreme Court resident in that territorial limit.

Whittemore's friends in South Carolina are arranging a series of public meetings in his district, to be addressed by him in vindication of his conduct in the disposal of cadetships. The object is to arrange for his re-election to Congress.

Sumner entered a motion to reconsider the vote on the passage of the omnibus disability bill, which is thus still pending. This action is directed against ex Congressman Clingman, of North Carolina, whose name is included in the bill.

The Mexican Vice Consul at San Antonio, Texas, says [illegible] occupied San Luis Potosi [illegible] occupied [illegible] days before. Consequently the revolutionary movements in Mexico must be suppressed.

Mehan is better, and his physicians say he will recover.

The Produce Exchange has adopted a resolution congratulating the Assembly Committee on its agreement on a report favorable to the Senate bill abolishing the contract system on canals.

General Quesada will probably be tendered a reception by the Cuban Junta.

Rev. Dr. McClintock is critically ill and his recovery is impossible.

The Surrogate has decided in favor of the validity of the will of Charles [illegible] [illegible] $300,000 in real estate and [illegible] personal property to the United States. [illegible] in the courts.

The Cuban Junta met at the house of President Aldama. General Quesada was present and gave an encouraging report [illegible] Cuba.

Marshal [illegible] Franklin Telegraph Company [illegible] against that Company by the [illegible] Company.

Wm. H. Seward [illegible] to be given by [illegible] evening [illegible] guests.

New York Legislature

NEW YORK, March 2.—Among the bills introduced in the Legislature [illegible] Senator Tweed for the establishment of an International Labor Exchange in New York city. The object is for providing labor for laborers unable to [illegible] for themselves. [illegible] commissioners is [illegible] correspondence with the Governors of the several States [illegible] the different [illegible] forfeitable after the first payment.

Loans of Public Credit

[illegible] from the Chicago *Republican* [illegible] may be instructive to Oregon readers [illegible] has a matter of public policy [illegible] have an interest.

The [illegible] Convention adjourned on Saturday, pending the consideration of the thirty [illegible] of the Legislative report, which prohibits the State and all cities and counties from lending the public credit to aid any individual, association or corporation. This was subjected [illegible] and Mr. Parks [illegible] to the people separately.

The objections to the proposition were mainly [illegible] in the one expression: "The people [illegible] do what they will with their own money [illegible] enrich their [illegible] right to help build them."

This claim is plausible, but it does not fairly state the case. Nobody denies that men have a right to do what they will with their own money; the fundamental question is whether they have a right to do what they will with other people's money. This provision does not prevent Smith, Brown and Jones from investing their capital in railroads; it only says that these three shall not be allowed to combine together and invest the money of Johnson, without Johnson's consent. Mr. Coolbaugh, of this city, made an argument for the proposed restriction which has not been successfully answered, nor do we believe it can be.

There are large communities in all parts of the country, that have impoverished themselves [illegible] loans of their credit. City after city, county after county, State after State, has looked over the precipice of bankruptcy for the privilege of seeing the ground broken for a new railroad. Hartford, Connecticut, has loaned its credit to railroads far beyond what it can ever pay—and its folly has been copied by hundreds of other cities East and West.

Minnesota, in a fit of financial insanity, in 1858, loaned its credit to the amount of five millions of dollars to prospective railroads—to companies that had never struck a spade in the ground; indeed to companies that were not organized! The amendment was carried in a wild whirl of enthusiasm, under the cry, "For the good of the State!" and it was born of the desperation and poverty that followed the crash of '57. The phantom railroads never met their obligations, and Minnesota, ruined just as nearly as such an enterprising and vigorous State can be, is now shinning around and seeking for some expedient for relief. She will probably have to sell her territorial birthright of Government land to meet the debt—and the railroads she so much needed are being built mainly by private enterprise, after all.

So with Tennessee—only vastly worse. When that rich commonwealth awoke from her wild dream of secession, she found her railroads and their rolling stock in ruins. Her people were poverty stricken; but as they became prosperous, they demanded recuperation and [illegible]. The military withdrew, and left a chaos of rails, old depots, and half worn cars and locomotives, which the impecunious roads bought on credit of the Government, with which to make a beginning. To provide for what seemed a passing exigency, the Legislature began to loan the credit of the State to railroad companies. The members doubtless thought they really were providing means for a speedy development and enrichment of the State, just as the bland and hopeful Micawber deluded himself with the idea that he was discharging his debts when he gave a new note.

But such an infatuation could not last. An investigation disclosed the appalling fact that the State had loaned its credit to the amount of more than *twenty four millions of dollars!* The roads, though mostly old lines, few being new projects, could not pay the interest on the bonds, and the already bankrupt State is compelled to assume and provide for its payment. At this moment, Tennessee is the most oppressively taxed State in the Union. The bonds are outstanding, and the credit of the State is entirely lost. To meet the interest, taxes are imposed which sometimes exceed any possible income from the property. The question, "What shall we do with our enormous debt?" is the urgent one that stares every Tennessean in the face to day, and the Constitutional Convention, in session at Nashville, is considering this same proposition, to prohibit all loans of public credit to private corporations.

Disgraceful Outrages.

[From the San Francisco Bulletin, Feb. 23.]

Several violent assaults on unoffending Chinese were made in this city, yesterday, in every instance by ruffian boys, but sustained and applauded by a crowd of low men. Hundreds of men and boys pursued a single helpless Chinaman at a time, attacking him with a brutality only exceeded by its cowardice. Respectable citizens who expostulated or interfered were insulted or maltreated. A policeman who attempted to do his duty was thrown down and beaten. Such occurrences as these have become shamefully frequent of late. Hardly a day passes that some assault is not made upon Chinese by boys or men. On the occasion of the arrival of Chinese by steamer they have repeatedly been pelted with mud, sticks and stones as they rode in open wagons through the city. This is generally done by children, invited and encouraged by crowds of men who laugh at the sport and threaten anybody who has the courage to expostulate.

The record of these things is enough to bring the blush of shame to the cheek of every American citizen. They would disgrace a community of barbarians and to a civilized community that boasts of its Christianity they constitute a burning reproach. No matter what opinion may be entertained regarding the policy of promoting or discouraging Chinese immigration, such of these people as are here are under the shelter of our flag and our laws; they come under the pledge of solemn treaties and the honor of the country is involved if they fail to receive protection. Unless the local authorities interfere more earnestly and efficiently for their protection, riot and bloodshed will ensue sooner or later; and even if this crisis is not reached, the name of San Francisco will become infamous throughout the land. The police ought to arrest and take to jail some of the desperate youths who are found mobbing Chinamen. A few examples of this kind would at least prevent children from being made the instruments of cruelty and educated to violence and crime, and there is no excuse for allowing them the wicked license they have lately enjoyed unchecked. If parents have not the virtue or the sense to restrain them, they should be compelled to do so by fear of the law. The peace and good name of the [illegible] the present age [illegible] adult ruffianism [illegible] law abiding and humane citizens look to the authorities to use the utmost vigilance, and [illegible] if necessary to prevent the constant recurrence of wanton outrage.

RIDAY MORNING, MARCH 4 1870

One Year of Grant

t is just one year since President Grant e into office The results of this one r of his Administration justify fully the pectations which the country had formed l fulfill all the promises made by the party t elected him

President Johnson's term especially the t half of it, was characterized by bitter rty strife at the North and violence and sorder at the South Everything was in rmoil the ex rebels were bold in their d rations and arrogant in their demands and eir Northern political allies were making rmidable, though covert, onslaughts upon e public credit, were threatening to repudi e the national debt and taking steps to ace the country substantially under the le of those who had just been making an fort to destroy it The revenues were only rtially collected, the Government was de auded of millions by officials who had been pointed by Johnson in consideration of po tical services, and the debt during the last ear of Johnson's term was increased by any millions. Gold was still at a high pre ium, standing nearly at 150, and there was eneral distrust of the financial soundness of he country. Such is a brief view of the tuation as it was, prior to the election of en. Grant.

The mere fact of his election at once start d gold downward, and even before he be ame President it had declined to 112 His duction into office was the signal for a more fficient administration of public affairs to egin The revenues at once began to im rove and the expenses to diminish. Gold ver since has been steadily declining, until now it has touched 115 There is confidence everywhere in the financial soundness of the ountry. During this one year of Grant the debt, which had previously been increasing, has been diminished by the vast sum of eighty-seven million dollars This has been accomplished mainly by economical reforms in the public service, by which expenditures have been checked and the taxes paid by the people carried honestly into the Treasury. [illegible] has been the success of [illegible] peace and quiet in the country. Under the Johnson regime the South was seething and boiling with hateful passions. The leaders of the rebellion were coming forth to dictate the policy of the country. The lives of Union men were continually in peril, and the country was repeatedly shocked by the perpetration of cruel massacres. President Grant came into office promulgating the sentiment, "Let us have peace." The nation responded to the sentiment, and was ready at his call to enforce the peace it had resolved to have. At once there was an end of violence Those who had kept the South in this cruel agitation perceived that it would not do to go further. And during the past year the South has been, on the whole, as quiet as any other section of the country, its industries are reviving and its people are making rapid advances in prosperity.

Such, in brief, have been some of the results of the first year of President Grant There is every probability that before another year closes specie payments will be resumed, that the public credit will be so improved that we can get loans at lower rates of interest, and that the burden of the public debt will thus be materially lightened. The Republican party is thus steadily fulfilling all its pledges and is establishing on a firmer basis than ever its title to the confidence of the country.

Special Statement by Secretary Boutwell

There are in Oregon a number of editors who profess to be unable to comprehend Mr Boutwell's method of stating the public debt. They declare that he mystifies it, and by a species of arithmetical jugglery, makes it appear to be diminishing, when it is actually increasing. For the benefit of those who criticise thus, we give place to the following statement made by Secretary Boutwell to Senator Cragin, of New Hampshire. The Albany Democrat can understand this statement if it can understand anything, and it could not do its readers a greater service than to copy it They will understand it if that paper does not. Here is the statement

TREASURY DEPARTMENT,
Feb. 7, 1870

SIR: I reply briefly to your letter of the 4th inst. in reference to the amount of public debt on the 1st of March, 1869, as compared with the amount on the 1st of February, 1870

The net amount of the public debt on the 1st of March, 1869, including interest accrued and not paid, and excluding Pacific Railroad bonds, was $2,525,468,260 01. The principal of the bonds then issued to the Pacific Railroad Companies was $53,937,000, or an aggregate liability and indebtedness of $2,579,405,260 01.

On the 1st of February, 1870, the net amount of this debt, excluding bonds issued to the Pacific Railroad Companies, and including interest accrued and not paid, was $2,444,813,288 92 The bonds issued to the Pacific Railroad Companies at the latter date amounted to $64,457,320, or an aggregate liability and indebtedness of $2,509,270,608 92

It thus appears that the liability of the United States on account of the Pacific Railroads has been increased during the eleven months, under acts of Congress previously passed, to the amount of $10,520,320.

During the same period of eleven months, the direct debt of the United States has been diminished $80,649,971 09, and if the increased liability of the United States on account of the Pacific Railroads be added, there still remains an actual diminution of the total public debt of the United States, direct and contingent, during these eleven months, of $70,129,651 09

These statements are based upon the books of the Treasury Department, and cannot in any way be impeached

Very respectfully your obedient servant,
GEORGE S BOUTWELL Secretary

Hon. A H CRAGIN, United States Senate, Washington, D C

Editorial Notes

The dispatches state that E S Kearney is confirmed United States Marshal for Washington Territory So that lets out little Ritz But if the Olympia Transcript is reliable it also strikes a deadly blow at the Northern Pacific Railroad Ritz, it has told us, was the chief prop of this great enterprise, which fact accounted for the OREGONIAN's hostility to him.

Of course we find Mungen the repudiator and Golladay his abettor engaged in the disreputable business of selling cadetships If any dishonesty is abroad it is naturally expected that such persons as these will have their fingers in it So far the business appears to be confined to these two eminent moralists and a couple of Southern carpet baggers The Herald, it will be remembered issued a repudiation extra, thus circulating through Oregon five thousand copies of Mungen's speech. The people of Oregon will now be able to form some idea of the morals of the man whom that paper has so enthusiastically commended, and whom it has even nominated for President

Another outrage is reported showing the proscriptive nature of Radicalism, to which we call the attention of the Democracy In the case of the United States against certain delinquent postmasters at the South the Supreme Court on the 14th February rendered a decision holding that the turning over by these postmasters of public funds in their possession to such persons in the rebel States as had claims against the Government, though sanctioned by Confederate law, was unlawful and that they [illegible] are still liable Here is more tyranny Is it not [illegible] let us ask for a great Government to hold its servants to such rigid account and to impose such exactions on a helpless people?

It is said that Col Chapman is about to print a speech recently delivered by him in advocacy of the workingman's cause We hope it will prove a good job for the printer and thus be of some practical benefit to the workingman since this is the only service it will be likely to render to the cause of labor We may expect certain gentlemen among us to be full of zeal for the workingman for about three months yet but it would be perfectly safe to offer a considerable subsidy for every workingman's club which they will organize and every speech in the "sacred cause of labor" which they will deliver after that date These champions of labor, after the June election will have other business to attend to

There is a plea in the Herald for fair play at the primaries which its party is soon to hold here And in its zeal in this behalf it is not very nice in the use of language For instance, it says that "Portland contains a vast number of irresponsible vagabonds, who should be checked in any attempt they make to carry the Democratic primaries What a slander is this upon a large portion of the party! Does not the Herald know that its party would have no chance in the world to elect its candidates without the votes of those whom it thus stigmatizes? It expects their votes in the election, but is not willing that they should have a hand in making the ticket. That would be the height of impudence on the part of those who are expected merely to do the voting necessary to elect candidates who have already parcelled out the nominations among themselves.

The Herald makes this lucid statement: "People of Oregon, this man George H. Williams is a follower of Phillips. He voted to kick out Tennessee, if it is concluded to be necessary." We think this specimen of syntax will suffice, and cannot believe that the most exacting of our readers would require us to give more But as to Tennessee, it may be said that she needs more reconstruction than she is likely to get. There is a Convention now in session at Nashville preparing a new Constitution This Convention is composed of seventy five members, sixty-eight of whom are disfranchised under the present Constitution and laws of the State They are men who served in the rebel army in all capacities, from Major General down to the private soldier A high old constitutional body this is! Congress would have the best of grounds for working Tennessee over again after the manner of Georgia, but we have no idea it will be done

Newspaper Topics

The Commercial has an article criticising the alleged remissness of the Columbia river bar pilots.

The Call thinks that when the Democratic primaries come off in this city the party managers will have a nice time in disfranchising the "irresponsible vagabonds," as the party organ styles a numerous branch of the organization.

The Oregon City Enterprise holds with the Albany Democrat that the national debt is not in process of reduction Well what is there, then, that is certain? Who knows for certain that there is any national debt? There is the same authority for the statement that the debt is decreasing that there is for the statement that we have any debt at all

The Herald has it that it is the policy of the Republican party "that peace is, and shall remain, a stranger to the land until all the inhabitants thereof are content to wear the yoke of tyranny without a murmur," and so on for a dreary column of first-class fustian The same paper is also rejoiced to hear that the "great General, statesman and scholar, Robert E Lee," has written a letter on the Chinese question We do wish that those Oregon Democrats who are hungering and thirsting for a chance to vote for Lee for President could be gratified

The Army Bill

The new army bill, reported by the House Committee on Military Affairs, proposes some very important changes in the organization of the army, accompanied by large reductions in the number and pay of officers It is estimated that by mustering out all supernumerary officers and abolishing the system of commutations, not less than $1,500,000 per annum might be saved to the Treasury We give below a synopsis of the bill

Section one provides for the assembling of a Board by the Secretary of War to consist of one Major General, two Brigadier Generals and two Colonels, who were in active service during the late war This board is to examine the qualifications of all officers below the rank of Brigadier General, and recommend for appointment or transfer to vacancies, or retention in position, such as may be best fitted to fill the same as shown by previous active service, willingness to continue to do duty, and moral standing It also provides that commanders of departments forward to the Secretary of War lists of officers who have given evidence of a want of adaptation to military duty and who can without detriment to the service be mustered out

The Board is required to report to the President who, if he approves the report shall order the transfers, and, with the consent of the Senate make the appointments recommended And all the officers not recommended shall be mustered out of service Those recommended who shall not be transferred or appointed in six months after the Board reports shall also be mustered out

Section two provides that in transfers to fill vacancies, the officers shall take rank in the grade to which they are transferred from the date of the commission

Section three provides that the offices of General and Lieutenant General shall cease as soon as a vacancy occurs

Sections four and five provide that after Sept 1, 1870 there shall be only three Major Generals and six Brigadier Generals

Section six that the [illegible] Adjutant General Quartermaster General Commissary General [illegible] [illegible] Chief of Engineers [illegible] General shall [illegible] and pay of [illegible]

Section [illegible] this act [illegible]

Section eight that [illegible] shall be in the [illegible] of the President provided, that the number [illegible] two hundred and fifty

Section nine that [illegible]

Section eleven that no officer of the army shall hold a civil office

Section thirteen transfers [illegible] Affairs under the Secretary of War

Section fourteen reduces the pay of all the officers including Colonel [illegible] and provides that the amounts specified shall be in full of all commutation of quarters, fuel, forage &c provided, that fuel quarters and forage in kind, may be furnished as now allowed by law

A movement has been made to get a new Custom House at Port Townsend W T Mr Garfield has introduced a bill in Congress providing for it

CURRENT NOTES

The use of nitrous oxide gas as an anesthetic continues steadily to increase in England, and the [illegible] manufacturers [illegible] sixty thousand gallons per annum [illegible] entirely from its popularity among dentists The gas has received comparatively little encouragement from surgeons

On the 14th of February Mr. Garfield, of W T introduced a bill in Congress to donate the military reservation at Fort Steilacoom to the Territory of Washington for the use of the insane asylum, which was read a first and second time and referred to the Committee on Public Lands, and ordered to be printed He also introduced a bill to create a new land district in the Territory of Washington

The California Immigrant bill now before the Legislature of that State provides for an expenditure of $237,600 per annum The [illegible] says of it This may be very comfortable for the schemers who propose to profit by the passage of this bill, and very acceptable to foreign immigrants who can be placed on these shores without cost or trouble, giving them superior advantages to our own laboring men and to all other residents here but it is hardly the thing to find favor with Californians who desire to be just, before being generous or extravagant

The Assessor of the Second Virginia District recently directed a guager to inspect a quantity of apple brandy which had been reported as distilled by a certain party in Southampton county in that State On repairing to the still he was informed that the amount distilled—one hundred and forty eight gallons—had been drank by the family of the distiller, including his wife, mother two girls and four sons, in forty five days and that he had no spirits for inspection There was no intention of fraud, the party paid the tax, and his neighbors asserted that during the time spoken of the entire family were constantly under the influence of liquor

A proposition has been made in the Missouri Legislature to take steps to divide that State The St Joseph Herald says of it Such a proposition as a division of the State has not only never been seriously considered in this section, but has perhaps never been thought of by a dozen citizens of the Northwest and we may safely assert a vast majority of our people would strenuously oppose any such foolish project The scheme if introduced in the Legislature at all will be urged by a lot of hungry spoilsmen who seek only an opportunity to fatten themselves on the public plunder But it is useless to waste words in speculation on this visionary project No division of the State can ever be effected without the consent of the people, and that will not be given.

THE WEEK.

The Helena (Montana) Herald says the small pox continues to rage fearfully among some of the Indian tribes of that Territory.

Another Democratic paper is to be started at Boise City. The Chronicle howls thereat, and declares that it is part of a scheme to disorganize the party It is hardly necessary to add that the Chronicle professes to be the "original Doctor Jacob," and to have prior claims on the Democracy

A counter organization to the so called Vigilante movement in Pierce county, W. T., has been formed The organization numbers in its ranks nearly all of the more orderly and law-abiding citizens of that region, who have determined that the outrages of the mob shall not be continued

The Olympia Age says: The bolters had a meeting jointly with the Democrats last week, in Olympia to consider the situation and agree on terms for the next campaign. We learn that they came to the conclusion to run B F. Dennison as a third candidate for Delegate in June, in hopes to draw off Republican votes enough to defeat the Republican candidate, and thereby secure the election of the Democratic nominee.

From the Seattle Intelligencer The lecture delivered by Hon Elwood Evans, of Olympia, before the Seattle Library Association last Thursday evening was a success, and proved creditable to the distinguished lecturer He demonstrated the fact that he was conversant with the history of our country, and more especially with that of the Northwest We learn that five hundred copies, in pamphlet form, of the lecture, have been ordered printed and will be distributed throughout the Territory

A Puget Sound paper has the following Fourteen tide-land claims are being dyked on the Swinomish The land produces all kinds of crops in great luxuriance Fruit trees bear well and are less liable to winter kill than orchards on high land A remarkable fact is that they are perfectly free from moss. These tide lands are going to become the greatest hop gardens in the country, but they need to be thoroughly dyked Dykes should be at least eight feet on the base, and built without sod, as experience proves sod to afford nesting places for mice, which will, in time, riddle the levee and cause it to break. These lands can be dyked properly at a smaller figure than timber lands can be cleared, and are doubly as valuable

OREGON

The new paper to be issued at Dallas will appear on Saturday, and will be called the Oregon Republican.

The Christian Church of Salem, which was considerably embarrassed a short time ago, is now entirely out of debt

The Salem Statesman hears that there are ninety-three Democratic candidates for sheriff in Polk county—mostly "imports" and "dealers" in "suffrage"

The Roseburg paper says that for the first time in several years the month of February has brought the stock raisers of Umpqua valley no offers for their surplus cattle

The average price for land sold near McMinnville during the past year was $32 50 per acre Smooth prairie land in the vicinity of the town will easily command $50 per acre

The Ensign says there are forty five persons in Douglas county who pay over $100 tax, of whom two pay over $550, three over $400, six over $300, ten over $250, and seventeen over $200

The City Marshal of Salem must be a fastidious man He has put a stop to foot racing on the long bridge because he thinks it not quite the thing for men to strip naked in broad daylight on one of the city thoroughfares!

There was an "onpleasantness" at a school exhibition at North Yamhill a few days ago The teacher and a portion of the Democratic patrons of the school objected to having the portraits of Lincoln and Grant hung up in the room where upon a number of Republicans declined to have anything to do with the affair and withdrew

A letter from Coos Bay says J T Jordan and [illegible] and J [illegible] Watson are owners of a new coal mine, which has lately been discovered It is said to be easy of access, and is estimated to be worth fifty thousand dollars This is the third coal mine that is now being worked in this county besides two or three others not yet opened

Views of Secretary Boutwell on the Fur Seal Question

In compliance with a resolution of the House of Representatives of January 17th the Secretary of the Treasury has sent a communication to that body giving information about the fur seal fisheries of Alaska together with recommendations as to the best means of preserving them and securing a revenue therefrom The Act of July 27 1868 was construed by the Treasury Department as fully applying to the killing of the fur seals for trade and instructions were issued allowing the natives to take a sufficient number estimated at 10 cents each to furnish an annual income each native of $45 62½ This permission authorized the killing by the natives on both islands of 85,117 seals in all As to whether a greater number have been killed the Secretary says the evidence is sufficient but he is of the opinion that at least 25,000 in excess of this number have been killed by the natives All the skins which have been taken however still remain on the Islands which are in charge of agents of the Government The Secretary says that great care is necessary for the preservation of the seal fisheries that the animals would either be destroyed or driven away if the business of capturing them or even the trade in their skins at the Islands were left open to free competition and that such a course would be destructive not only to business, but criminally injurious to the natives who have a right to the benefits of their fisheries as food to the extent necessary for their own support and whom the Government of the United States is bound to protect If the animals are protected [illegible] may be taken each year without diminishing the supply

The proposition to lease the islands for a term of years to private parties for an annual rental he deems objectionable because it would give exclusive control of a branch of industry important to the people of the United States [illegible] the preparation of the skins for use should be transferred from London to this country He proposes that the Treasury Department assume entire control of the business of the islands, establish a rigid system of military and naval police, exclude everybody but its own servants and agents and carry on the [illegible] with the natives by means of Treasury Agents the skins so taken to be sold by the Government at auction in San Francisco or New York and the profits if any to be applied to the education and religious instruction of the natives and generally for their physical and intellectual improvement He states that the expense of retaining the military [illegible] under this plan would not be greater than at present [illegible] with the foregoing recommendations he suggests that the Secretary of the Treasury be authorized to appoint [illegible] agents to superintend this business and that an appropriation of $100,000 be made out of which the natives shall be paid for the taking of seals by them and the other expenses incident to the business shall be defrayed In conclusion he urges immediate legislation as the season for operation will soon open.

IMPORTANT TO BUSINESS MEN —The following is the text of a circular issued by the Revenue Commissioner Feb 10th, prescribing the manner of cancelling stamps used upon instruments [illegible] writing and furnished for publication here [illegible] the Assessor of the District of Oregon

Section 155 of the Act of June 30, is as follows And be it further enacted, That the Commissioner of Internal Revenue be, and he is hereby authorized to prescribe such method for the cancellation of stamps, as substitute for or in addition to the method now prescribed by law, as he may deem expedient and effectual. And he is further authorized in his discretion, to make the application of such methods imperative upon the manufacturers of proprietary articles, or articles included in Schedule C, and upon stamps of a nominal value exceeding twenty five [illegible]

Owing to the extensive frauds committed upon the revenues by the washing, restoration and re-use of such internal revenue adhesive stamps as have been used and cancelled by the [illegible] known as the ribbon stamp, it is hereby ordered and prescribed, that, on and after May 1, 1870 all adhesive stamps used upon the instruments documents writings and papers, mentioned and described in Schedule B, of the Internal Revenue Law shall be cancelled by the person affixing the same either by writing upon each and every stamp, in ink, the initials of his name, and the date, (year, month, and day) upon which the same is attached or used, or by cutting and cancelling the same with the machine [illegible] "Wheeler's Patent Canceller," or such other machine or instrument as may hereafter be designated and prescribed by said Commissioner, and that any other method of cancelling such stamps, employed on or after that date, shall be recognized as legal or sufficient, until otherwise prescribed and ordered.

LOCAL BREVITIES —The steamer Montana took away last night over 700 tons of produce

It is reported that the bark Edward James is [illegible] load at St Helens with lumber for San Francisco

The Philharmonic Association proposes, as we are informed, to produce at their next concert Hayden's "Oratorio of the Creation."

Real estate transactions recently are very limited—scarcely worth mention

The Willamette river, already at quite a good stage, is slowly rising

The call for certificates of stock in the Puget Sound Homestead Association is active, from which we conclude that confidence in the investment is high

Gov Woods is announced as the next lecturer before the Young Men's Christian Association Lecture next Tuesday evening

The colored people of this city are making preparations to celebrate the ratification of the 15th amendment.

Two men for engaging in a punch at each other and one for swallowing more punch than he could carry were yesterday sent to the [illegible] jail for two days each

LOSS OF THE STEAMSHIP GOLDEN CITY — [illegible] following dispatch was received by the Commercial Wednesday afternoon

The steamship Golden City ran ashore at [illegible] sara Lower California, Feb 22d She is a total loss The passengers were rescued by the [illegible] rado on her way from Panama to San Francisco Nine passengers were lost on shore The passengers saved held an indignation meeting [illegible] Captain is supposed to be culpable The treasure was left on the beach The passengers were on shore four days they suffered for water, [illegible] walked twenty five miles before they were rescued

Nothing of the sort was sent to the morning papers however and there is no allusion to it in the dispatches of last night One or more private telegrams were received yesterday, confirming the news Messrs Savier & Co had a dispatch informing them that 300 bbls. flour shipped by the Golden City, was totally lost value [illegible] freights which are charged, loss or no loss about $2 000 We have heard of no other [illegible] by Port and shippers

TEMPERANCE ORGANIZATION —It was impossible for the reporter to divide himself into a sufficient number of fractions to go round Wednesday evening to all the places where there were proceedings of a public character and as no one connected with the temperance meeting at the Court House took interest enough in it to [illegible] us the news the report of the organization was unpublished We learned however yesterday that the meeting was attended by considerable numbers that a Constitution and By Laws were adopted and that the following officers were elected to serve for six months W W [illegible] President D W Williams and J Quinn [illegible] Vice Presidents Wm Masters Treasurer Jacob Stitzel Secretary The next meeting will be held on the evening of the 16th

CITY.

A MUCH NEEDED ORGANIZATION —At various times we have spoken of the need of an organization of merchants, in this city similar to the Boards of Trade or Chambers of Commerce of all the great commercial cities of the United States. The merchants who have expressed any opinion of the matter have invariably spoken favorably of the proposition but none has ever felt disposed to take hold of the business of starting the organization. We have lately however, heard several prominent merchants talk in rather decided terms about the feasibility and desirableness of having such an association and it is probable that a call may be soon issued for a meeting of business men to consider the project. We heard a dealer an active and intelligent business man, express the opinion yesterday, that were a Board of Trade established here, he would be able, through the facilities it would afford for conducting business, to save more in time than all the cost would be to him of supporting the organization. The tax to merchants engaged in it would not necessarily be large, not near so large as is now the tax upon their time lost in hunting over the city for what they want to buy, or to find a customer for what they have to sell, or in ascertaining the general conditions of the market. As things are now every dealer is under the necessity of spending as much time in keeping himself posted as to supplies in the city and country, demand and prices present and prospective. For instance if a dealer be offered a lot of wheat or of salt, or bacon, or whatever else you please he cannot buy prudently till he ascertains by laborious means how much there is on hand who holds it at what price and whether any considerable quantity is expected to arrive, etc. An organization of the kind we have spoken of, would correct all this, and would, beside, furnish the city and country with valuable information in the way of statistics. We shall hope to be able soon to [illegible] that such an organization has an actual existence in this city.

IMPORTANT TO BUSINESS MEN —The following is the text of a circular issued by the Revenue Commissioner, Feb 10th, prescribing the manner of cancelling stamps used upon instruments of writing, and furnished for publication here by the Assessor of the District of Oregon

"Section 157, of the Act of June 30, is as follows: 'And be it *further enacted*, That the Commissioner of Internal Revenue be, and he is hereby, authorized to prescribe such method for the cancellation of stamps, as substitute for or in addition to the method now prescribed by law as he may deem expedient and effectual. And he is further authorized, in his discretion, to make the application of such methods imperative upon the manufacturers of proprietary articles, or articles [illegible] in Schedule C, and upon stamps of a [illegible] value exceeding twenty five cents.

"Owing to the extensive frauds committed upon the revenue by the washing, restoration and reuse of such internal revenue adhesive stamps as have been used and cancelled by the machine known as the ribbon stamp, it is hereby ordered and prescribed, that, on and after May 1, 1870, all adhesive stamps used upon the instruments, documents, writings and papers, mentioned and [illegible] in Schedule B, of the Internal Revenue Law shall be cancelled by the person affixing the [illegible] by writing upon each and every [illegible] the initials of his name, and the date (year, month, and day) upon which the [illegible] attached or used, or by cutting and cancelling the same with the machine called "Wheel [illegible] Patent Canceller," or such other machine or [illegible] as may hereafter be designated and [illegible] by said Commissioner, and that no other method of cancelling such stamps, employed [illegible] that date, shall be recognized as legal [illegible] until otherwise prescribed and ordered."

[illegible] SHIPMENTS.—The steamer *Montana* took away last night over 700 tons of produce

It is reported that the bark *Edward James* is to load at St. Helens with lumber for San Francisco

The colored people of this city are making preparations to celebrate the ratification of the 15th amendment.

Two men for engaging in a punch at each [illegible] and one for swallowing more punch than [illegible], were yesterday sent to the city jail for two days each.

LOSS OF THE STEAMSHIP GOLDEN CITY —The [illegible] dispatch was received by the *Commercial* [illegible] yesterday afternoon:

"The steamship *Golden City* ran ashore at Lar[illegible], Lower California, Feb 22d. She is a total loss. The passengers were rescued by the *Colorado*, on her way from Panama to San Francisco. [illegible] passengers were lost on shore. The passengers saved held an indignation meeting. The Captain is supposed to be culpable. The treasure was left on the beach. The passengers were on shore four days, they suffered for water, and [illegible] twenty five miles before they were rescued."

Nothing of the sort was sent to the morning [illegible], however, and there is no allusion to it in the dispatches of last night. We have heard of no other loss by Portland shippers.

TEMPERANCE ORGANIZATION —It was impossible for the reporter to divide himself into a sufficient number of fractions to go round Wednesday evening to all the places where there were [illegible] things of a public character, and as nobody [illegible] with the temperance meeting at the Court House took interest enough in it to bring us the news, the report of the organization went unpublished. We learned, however, yesterday, that the meeting was attended by considerable [illegible], that a Constitution and By-Laws were [illegible] and that the following officers were elected to serve for six months. W W Page President; D W. Williams and J. Quinn Thornton Vice Presidents, Wm Masters, Treasurer Jacob Stitzel, Secretary. The next meeting will be held on the evening of the 16th

WILL THE COMMITTEE TAKE A WALK?—On Wednesday night the Council authorized the Committee on Streets and Public Property to cause to be erected, hereafter street lamps, at their discretion. We presume that the Committee will order lamps for such intersections as, in their judgment, may need them, but we wish to suggest that they can scarcely form an intelligent opinion by observation by daylight. If they will meet at twelve o'clock some dark, moonless and rainy night, and take a good long tramp up and down out and back, on our streets, they will doubtless find several places which would be all the more [illegible] [illegible] by having a street lamp, but which might be overlooked in a tramp by daylight. Will the Committee take a night walk?

"AN EXCELLENT IDEA"—On Wednesday the flagstaff on the Odd Fellows' Temple bore a small banner on which was printed the figure 2. Many supposed that as Wednesday was the second day of the month, the banner was flying to indicate the day of the month and it was spoken of as an "excellent idea." Upon inquiry, however we learned that the purpose of the banner was to give notice of a meeting that evening of Samaritan Lodge No 2, and that meetings of other Lodges will be notified in a similar way. When Harmony Lodge is to meet the banner will bear the figure 15 and the others their appropriate numbers. So after all though the first impression was wrong the display of the banner is an excellent idea."

ELECTED AND DECLINED —At a meeting of the Portland Library Association Wednesday evening, Judge Deady was unanimously re-elected to the office of President, but feeling that he had served long enough in that capacity to be fairly exempt, he respectfully declined the office whereupon Mr Lewis was chosen with great unanimity. Judge Deady had served continuously and faithfully for many years and very much of the prosperity of the institution is attributable to his unwearying efforts in its behalf

FROM SALEM —The boats of yesterday and the day before brought down quite a number of Salem people, several of whom are en route to San Francisco to purchase spring stocks of merchandise.

PERSONAL —The Washington correspondent of the Eugene [illegible] under date February [illegible] mentions a number of Oregon people at the [illegible]. Among them [illegible] Mr I M [illegible] and wife stopping at New York City, and intending to start [illegible] Jacob Kamm, M W Fechheimer and J [illegible] were at Washington City. Several other Oregonians were [illegible] D P Thompson and wife, R Jack and wife of Oregon City. Judge [illegible] of Astoria.

PASSENGERS FOR SAN FRANCISCO —The steamship [illegible] yesterday for San Francisco taking the following named passengers: [illegible] Mary Kompute, Wm Ashburn [illegible] Mrs M [illegible], O D [illegible] H W [illegible], Jarel [illegible] Hastings, A Altmyer, [illegible] Miller, [illegible] M Jacobs, L Bettman, M Sternberg, S Kohn, Miss Julia Collins, Wells Fargo & Co's Messenger and 12 in the steerage.

CARPENTERS AND BUILDERS ASSOCIATION —We learn that the carpenters and builders held another meeting Wednesday evening, received the report of the committee on constitution and by laws and adjourned to meet again next Wednesday evening without effecting a permanent organization. A committee to correspond with the Carpenters and Builders League of San Francisco was appointed.

PROSPECTS GOOD —The dispatch of yesterday, from Victoria says the Bates [illegible] will [illegible] Saturday night with good prospects. The city is represented as quite full of people who are waiting for opportunities to go forward to the northern mines. We shall hope to hear of Mr Bates success.

SPRING STYLES —On Saturday the 12th inst the spring style of silk and cassimere hats will be opened at Meussdorffer's Hat Emporium, corner of Front and Morrison streets. Of course there will be a rush in that direction, as Meussdorffer rules the fashion.

BENEFIT —To night Miss Bessie Gregory will take a benefit at Oro Fino Theater. She is very popular with the crowd if we may judge by the frequency with which she is encored and we doubt not she will receive a substantial benefit this evening.

Ben Hayden at Hillsboro

HILLSBORO, Feb 26th 1870

EDITOR OREGONIAN

Another mountain has travailed, and another mouse has appeared. For some time past it has been announced in the Democratic papers and otherwise that to day at ten o'clock the Democracy of this county would meet in a grand mass meeting at this place, and at one P M, it would be addressed by the Hon Ben Hayden

At ten A M Ben came to time but the Democracy did not. Occasionally, however, one of the unreconstructed would straggle in. At about one a peculiar yell issued from the saloon, followed by eighteen Democrats and two Republicans. The Democrats then proceeded to the Court House and organized the convention, which was immediately taken under control by a couple of bed rockers, who in turn were apparently under the control of "spirits." The chairman being the first one nominated for delegate to the State Convention, put his nomination to a viva voce vote, and declared himself elected. One of the aforesaid bed-rockers, moved by the "spirits," staggered to his feet, and announced that he would withdraw one of the delegates elected, and move to elect brother S [illegible] in his place. The motion was agreed to, the minutes were read, approved, reconsidered, amended, approved again, and the great mass meeting of the Democracy of Washington county adjourned. Some one was then heard to call the name of Hayden. In response Ben appeared at the other end of the house, advanced to the stand took off his neck tie, unbuttoned his collar, laid aside his coat disclosing his usual dirty shirt, and proceeded to orate. He told us that the Democratic party was a glorious party, that would live as long as liberty should remain in this "kentry," that it had given us the Constitution and our form of government in opposition to the monarchist Hamilton that it had carried on the Government in peace and glory for sixty years, through the Mexican war, and that of 1812. What had the negro equality party done? Hadn't it devastated the fairest part of our "kentry" with fire and sword? Hadn't it shed the blood of our "brethren," for ain't we all "brethren," North and South? He then told us that the Democratic party was just as it had always been. Implored its deserters to come back, and then, forgetting he had just charged the Republican party, alone with the desolation of the country, proceeded to ask: Did'nt the Democracy of the North stand by the war? Didn't it furnish all the generals and all the soldiers, and do all the fighting? He did not want national banks. They took interest on money that they did not have. He was opposed to all tariffs for protection, revenue or any other man. Wants direct taxation. He don't want to pay bonds in greenbacks. Wants to establish a Court of Equity and declare them paid. Is that repudiation? He don't like the nigger nor his suffrage. He aint a going to submit to it. Can't come any 15th amendment on him. It ain't an amendment its a subversion of the Constitution. He believes in the fathers, the Government as it was and the nigger as *he* was. And then poor John. He don't want to drive him off, he wants to tax him so he can't stay, he don't believe in mobbing him but let him *protect himself*. He don't fear the nigger and Chinaman being made equal to a Democrat, but did a Democrat want to be brought to the level of a nigger and a Chinaman? The remainder of the time was occupied by the speaker in employing his skill at combining all the vituperative epithets in his vocabulary in different orders to place on the backs of Sambo and John. Considering the overthrow of the Republican party too much for him, he evidently considered Sambo and John opponents worthy of his steel, an opinion agreed to by A RAD

RAILROAD MATTERS are very likely to be lively this spring. The East Side Company will engage a large force of men to complete their road to Albany and the West Side Company will very probably build a portion of their road in order to obtain a land grant to facilitate the building of their line to McMinnville. Heitt & Fisher are keeping up with railroad times. Their stock of spring goods coming across the continent by rail will be the largest and finest stock of Clothing ever imported to this State. Their stock in store now is offered very low to make room for large arrivals. They are manufacturing the neatest styles [illegible] and always have on hand a large stock of the same which are offered at lowest figures

REMOVAL —J W Campbell has removed his new Patent Bed Bottom manufactory to Messrs Jonsen & Rethlefsen's Cabinet and Carpenter shop, southeast corner of Morrison and Fourth streets. Although but recently introduced the Monroe [illegible] Bed Bottom is fast coming into general use and is giving general satisfaction. Come and see it. j29d1m

The Living Machine.

Injure the main spring of a watch and every portion of the works becomes disordered. The human stomach is to the human system what that elastic piece of metal is to a chronometer. It influences the action of the other organs and controls to a certain extent, the whole living machine. The comparison may be carried further: for as the weakness or other imperfections of the main spring is indicated on the face of the timepiece, so also is the weakness or other disorder of the stomach betrayed by the face of the invalid. The complexion is sallow or faded the eyes are deficient in luster and intelligence, and there is a worn anxious expression in the whole countenance which tell as plainly as written words could do, that the great nourishing organ whose office it is to minister to the wants of the body, and to sustain and renew all its parts is not performing its duty. It requires renovating and regulating, and to accomplish this end Hostetter's Stomach Bitters may be truly said to be the one thing needful. The broken main spring of a watch may be replaced by a new one but the stomach can only be repaired and strengthened and this is one of the objects of the famous vegetable restorative which for eighteen years has been waging a successful contest with dyspepsia in all climates. As a specific for indigestion it stands alone. When the resources of the pharmacopoeia have been exhausted without, at best, doing more than mitigating the complaint, a course of this wholesome and palatable, yet powerful stomachic effects a perfect and permanent cure. In all cases of dyspepsia the liver is more or less disordered and upon this important gland, as well as upon the stomach and bowels, the Bitters act with singular distinctness, regulating and re-invigorating every secretive and assimilating organ on which bodily and mental health depend

The American Patent System

[illegible]

…etters p[illegible] in this country …n the nature of a contract between th… …l and the original and first inventor …reby he receives the exclusive privilege [illegible] …rcising his invention for a limited time as …compensation for his time, ingenuity and …ense in perfecting the invention and [illegible] …ing it to practice, for the community and …t to the public and for their right to use …reely when the exclusive right of the pat… …ee expires.

…n invention is property of the highest [illegible] Whatever may be said of the right …ch man may acquire in the soil by his oc… …pancy of it, or in the materials with which … works, or in the profits of his labor, it …uld seem to be a self evident proposition …t he is the owner of that which he creates …d that when his ideas, no longer vague or …eamy speculations, have taken useful form …d been reduced to practice, not the ab… …act ideas, but the concrete and the em… …died principles are his own to dispose of as … will.

…As it is impossible to pay for useful in… …ntions in money, we pay in time which …e inventor must turn into money if he can. …To insure the fairness of this transaction, …der the patent laws of the United States, … examination is made into the nov… …y of the invention prior to the …anting of the patent. This investiga… …n includes an examination of the …tents already granted, of the applications …ected, of the foreign patents, printed copies … which are furnished us, and of the …xt-books and cyclopedias. In making the …amination, reliance is placed in the draw… …gs, the text and models being resorted to …ly where the drawings are obscure and need …rther explanation.

…As nearly 100,000 patents have been granted, …d 50,000 applications have been rejected, in …is country alone, it is manifest that this ex… …mination is not an easy task. It would be …possible to make it without a careful clas… …fication of this subject of invention and …thout the assistance of trained and skillful …aminers. With these appliances it is for …e most part accurately made at a cost of …ly $15 for each application.

…I do not hesitate to say that such an exam… …ion made by skilled, sworn, and impartial …perts is more thorough and satisfactory …an it would be if made at much greater cost …y solicitors who made it in the interest of …eir clients.

…Accordingly, the history of patent litigation …ll prove that but few patents have been …ld to be void by reason of the existence of …ior inventions, the knowledge of which was …thin the reach of the Patent Office. …he greatest source of litigation is the conflict …pon the issue of infringement, or the effort …n the part of the inventor to carry the pat… …t beyond the limits assigned to it by the …fice at the time of its issue.

…However good the patents may be, as rep… …senting an invention of undoubted novelty …d technical utility, doubtless many of the …ventions covered by them prove worthless …pon practical test. The number of useless …ventions is, however, much less than is com… …only supposed.

…Our patent laws have proved such a stimu… …s to invention, and have fostered so many …aluable improvements, that we can well af… …rd to patent some trash. A patent for a use… …ss contrivance does but little harm, if it care… …lly defines the invention, since men will …ither use nor steal that which is good for …thing. It must, however, be borne in mind …at many good inventions are not developed …r want of means, and many are laid aside …ecause, although good and useful, and in ad… …nce of the art to which they belong, others, …eir cotemporaries, are so much better and …eaper that they catch the public eye and se… …re the market.

…Whenever the need of a new invention is …gg…ted, the Patent Office is inundated with …e applications of those who attempt to sup… …y the demand. Some of these are crude, …t suggestive of improvements, and very …any are useful. Some few, however, in each …ass will prove to be the best and cheapest, …d these alone will come into notice to the …clusion of others. The protection afforded … the patent and the hope of reward have …oved the incentives to invention, and the …blic, enabled to choose from many devices, …tains the best thing.

…Of course the larger number of patents …w granted are for improvements, and for …w combinations. Some of these are doubt… …ss, trivial, while many are of real benefit. …he issue of patents for mere technical com… …nations is mainly due to the present system … patent soliciting.

…Where establishments are organized for the …rpose of procuring patents, they are apt to …come more solicitous about the number than …e quality of those which they obtain. This …ndency is aggravated by those who solicit …tents upon contingent fees, or who, without …ecial training or qualifications, adopt this …siness as an incident to a claim agency, and …ess for patents as they press for back pay …d pensions. Such men are often more de… …ous of obtaining a patent of any …nd and by any means than they are of ob… …ning one which shall be of any value to …ents. Inventors are often poor and uned… …ted, and lacking in legal knowledge …ey desire a cheap solicitor, and do not …ow how to choose a good one. They are …ased with the parchment and the seal, and … not themselves able to judge of the scope … value of the grant. Honest and skillful …licitors, with a thorough knowledge of the …actice of the office and of patent law, and …o are able and willing advise their clients … to the exact value of the patents which …ey can obtain for them, may be of much ser… …e to inventors. There are many such, but …ose who care for nothing but to give them …mething called a patent, that they may se… …re their own fee, have in too many instances …oved a curse. To get rid of their client and … trouble, they have sometimes been con… …t to take less than he was entitled to, while … many cases they have, with much self lau… …ion, presented him with the shadow, when … substance was beyond his reach. Be… …een such men and the office the strife is …stant. They have the ear of their client, …d, to some extent, of the public, and much … the misrepresentation of the spirit and …aracter of the work of the office is directly …ceable to this source. It must be said, …wever, in justice to attorneys that many …entors are so foolish as to wish to obtain …ents for trading purposes, or as a slave to …unded expectations, even when they know …t the grant covers nothing of value unless …e combinations which if never made be… …e, are never likely to be made again, even …hemselves.

…s Commodore Vanderbilt in the "Co." – …e New York *Herald* of February 9th con… …ns the following:

…ince the advent of the female stock bro… …age firm of Woodhull, Claflin & Co among … "bulls" and "bears" of Wall street a …er free use has been made of the veteran …mmodore Vanderbilt as the aider … abettor, if not the full partner, …he firm. He is alleged to be the "Co" …ch gives so business like a termination to … name of the new banking house; but so … as Wall street is concerned the only ba… … or the report lies in the fact that Wood… …, Claflin & Co, in opening an account at … Fourth National Bank, deposited a check …heir order signed by Vanderbilt. Now we …not intend to question the Commodore's …cy in this matter, but simply to suggest … he ought to put the stock gambling fra… …ity at rest about it. We have too great …ppreciation of the man who from pilot … a "periauger" over the bay, rose to be vir… … commodore of a steam fleet and king of … great railway domain to think of …thing that in this new develop… …t of woman's rights the Commodore sees …pportunity for his peculiar powers of en… …ing and ameliorating whatever he houses …vor with his auriferous attention. FINANCE AND COMMERCE

PORTLAND, March [illegible]

[illegible]

The [illegible] of the rate of legal tenders [illegible] [illegible]

[illegible]

[illegible] payment of large [illegible] the market [illegible] be a little [illegible] [illegible] per cent.

[illegible] Five Twenties [illegible] issue of 1867 [illegible]. There are however so few of these [illegible] any other bonds [illegible] little importance.

The probabilities of an increase in the National Bank issues [illegible] all matters [illegible] concerning this [illegible] of the circulating medium of interest and importance. We find a statement from the Comptroller of the Currency showing full returns from national banks in answer to the circulars sent out last summer, asking for information upon every feature of the national banks business. The returns are from 1 614 banks and for the year ending Sept 30 1869. They show the following figures:

Aggregate amount loaned by these banks to the business of the country for this time	$1 703 682 450 [illegible]
Number of loans	2 149 663 00
Average duration of loans	69 days
United States taxes paid	10 020 982 22
State taxes paid	8 [illegible]
Miscellaneous expenses	15 681 830 83
Total expenses	33 964 523 67
Net profits	[illegible]
[illegible]	[illegible]
Carried to surplus fund	[illegible]
Average rate of dividend	[illegible]

The local produce market is without material change so far as receipts and quotations are concerned. The boats plying on the Wallamet are bringing down every trip all they can possibly carry, and still there is a pressure of freights. Of late considerable quantities are coming down from points about Corvallis, and as high as Eugene.

Wheat—Firm at 70@73c for choice white for shipping.

Flour—dull at quotations, and only leading brands in noticeable demand. Operations are mostly confined to manufacturers who are shipping to realize.

Apples—best qualities of long keepers [illegible] at [illegible] 90c ℔ box—an advance.

Lard—in tins slightly appreciated, quotable at 12@13c, in kegs 11½@12c.

Butter—choice fresh roll 25c, good packed, 20c.

Potatoes—good table 37½@40c. The *Montana* takes away to day 125 tons.

The merchandise and grocery markets quiet with little disposition, however, among Jobbers to disturb prices. The following are the only changes to be noted: Candles—Harkness 1c higher. Coffee—Rio 19½@20c—a decline. Mackerel—hlf bbls $15 50@16—a decline. Salt—Liverpool, $2 50—lower than last week.

Dry Goods—We have to note to day some changes in prices of dry goods. Through the rapid decline of gold our merchants are compelled to advance prices on all staple articles. Contrary to expectations, goods at the East have not declined with gold and therefore goods on this coast will be higher until a change takes place in the East. We have no doubt that goods will finally decline but how soon, is a question which no one can solve. The working classes all over the country are making great efforts against a reduction of wages, the seller of raw material will demand old prices as long as possible; hence the manufacturer has either to stop his factory, keep up prices, or sell at a loss. As the supply at present in the East does not exceed the demand, there will probably be no reduction of prices until after the spring business is over. In the proper place will be found a revised list of goods and prices.

Hardware—Trade is almost at a stand still, and quotations are mostly nominal.

The dispatches announce a livelier state of trade springing up at Victoria, in anticipation of a good mining season at the north. Whatever improvement is found to be real, will enure to the advantage also of this city, as we still hold the bulk of the trade in that direction.

Matters in the Interior

A late letter from Canyon City gives the following intelligence: "Some two thousand head of hogs have been fattened and sold, principally to the Chinamen. Barley and oats are worth two cents per ℔, pork, twelve cents, beef, ten cents, flour, five cents, potatoes, two cents. The market is not overstocked, as was supposed. Stock of all kinds look well. There has been no snow in the valley, but sufficient rain to start the grass and furnish water for mining purposes."

An interior paper says that during the year 1869, over 400,000 ℔s of wool was shipped from Umpqua valley by way of Scottsburg.

Shipping Intelligence.

The steamship *California* sailed at an early hour yesterday morning, with 200 tons of produce and merchandise for Victoria and Puget Sound.

The steamship *Moses Taylor* sailed from San Francisco for Portland at 9 o'clock yesterday morning.

The *Montana* sailed to day for San Francisco with a full freight of produce.

The *Edward James* is still in port awaiting charter.

We notice that a movement is on foot to procure the abolishment by Congress, of all port charges, harbor fees, pilotage, etc., under State laws in accordance with the provisions of the Constitution of the United States which gives the regulation of commerce to Congress alone. An agent of Eastern ship masters and owners is now in San Francisco for the purpose of procuring petitions from the ship masters and owners on this coast, praying Congress to protect navigation from illegal exactions. This is a matter of the highest interest to all parties, and it is to be hoped that a large number of signatures will be obtained. The burdens of pilot and other charges are heavy at all the ports of the Pacific coast, and if any relief can be obtained the consumers and producers of the interior will be greatly thankful.

Estimates of Wheat on Hand

A private letter from a prominent house in San Francisco, says that the best authorities estimate that the amount of wheat in that State will aggregate about 1,600 000 sacks of 100 pounds each, and in Oregon 450,000 sacks, making a total of 2 050,000 sacks, or 3 415,000 bushels. Of barley, the same letter estimates that California has a surplus of 300 000 sacks while the supply of oats will be inadequate to the wants of the home trade.

Dr Gibbon's Dispensary

623 KEARNEY STREET NEAR COMMERCIAL San Francisco. Established in 1854, for the [illegible] and Seminal Diseases [illegible] Gleet, Stricture, Syphilis in all its forms [illegible] Weakness [illegible] [illegible] and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands [illegible] both male and female are there who are suffering an undeniable [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] ted and disfigured faces and [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] guardians [illegible] [illegible] they are cured [illegible] [illegible] them immediately [illegible] made private disease his especial study [illegible] [illegible] [illegible] [illegible] injurious [illegible] who are afflicted [illegible] welfare [illegible] [illegible] inquiring all diseases in a few days [illegible] [illegible] using the [illegible] [illegible] strictly [illegible] [illegible]

Seminal Weakness

[illegible] solitary vice [illegible] by the youth [illegible] producing with [illegible] of morbid symptoms unless combatted by scientific medical measures viz Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies should not forget the sacred responsibility resting upon them, nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars sent in registered letter or through Wells Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks, [illegible] pretenders who with bogus sworn-to certificates impose on the unwary. Some of the self-styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places are tradesmen, [illegible] became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory and you will not find their Medical Institutes in it, but you will find their former occupation in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets, for as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR J F GIBBON 623 Kearney street corner Commercial (Private Entrance on Commercial) San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTER.

Consultations FREE.

☞ Correspondents will please inform DR GIBBON that they read his advertisement in the *Daily Oregonian*. ly6d&pf

HIRAM SMITH'S

Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

E B MOORE	NATHANIEL BELL,
A L WALLACE	G R WARD,
Mrs MONTGOMERY,	JOHN M HOLLOWAY,
W D PORTER,	ROB'T RAMSEY,

And others in that vicinity.

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

Prepared by **SMITH & ROACH,** Harrisburg, Oregon.
